

ACHIEVEMENTS

Dear AHP Registrants,

We are pleased to inform you that since our nomination in March 2025, the Allied Health Professional Council (AHPC) team has been working incessantly to tackle matters of the Council. We hereby highlight the AHPC developments:

- The validation of AHPC internal organisational structure (refer to page 3).
- The set up of committees in collaboration with sub-committee members and AHP Associations.
- The final drafts of the CPD committee regulations and Ethics and Disciplinary committee regulations for all 18 professions.
- The Digitalisation Plan (with flowcharts) of Council processes.
- Ministerial negotiations for amendments to the 'transitional provisions section' of the Act to clear pending applications and the proposal of just solutions through collaboration with institutions.
- The submission of researched data on AHP requirements for 18 professions in collaboration with AHP Associations and registrants towards amendments to the Private Health Institutions Act.
- Networking with other local and international Councils & educational institutions for decision taking and guidance.
- The revision of levying of fees, analysing grant request procedures and making financial forecasts for the next two years, due to the need for digitalisation, staffing and possible relocation.

UPCOMING OBJECTIVES

- Clearing pending registration applications.
- Encouraging local undergraduate AHP training and guiding institutions to align with international requirements for AHP training, the AHPC Act, AHP Codes of Practice and regulations.
- Attending to AHPC ethics and complaints backlog.
- Launching the digitalisation process of the Council.
- CPD process detailing and piloting.
- Networking meetings with private and public institutions to raise awareness of the 18 AHPs.
- Networking of AHPs in Mauritius.

DELAYED REGISTRATION

221

MAJOR CHALLENGES

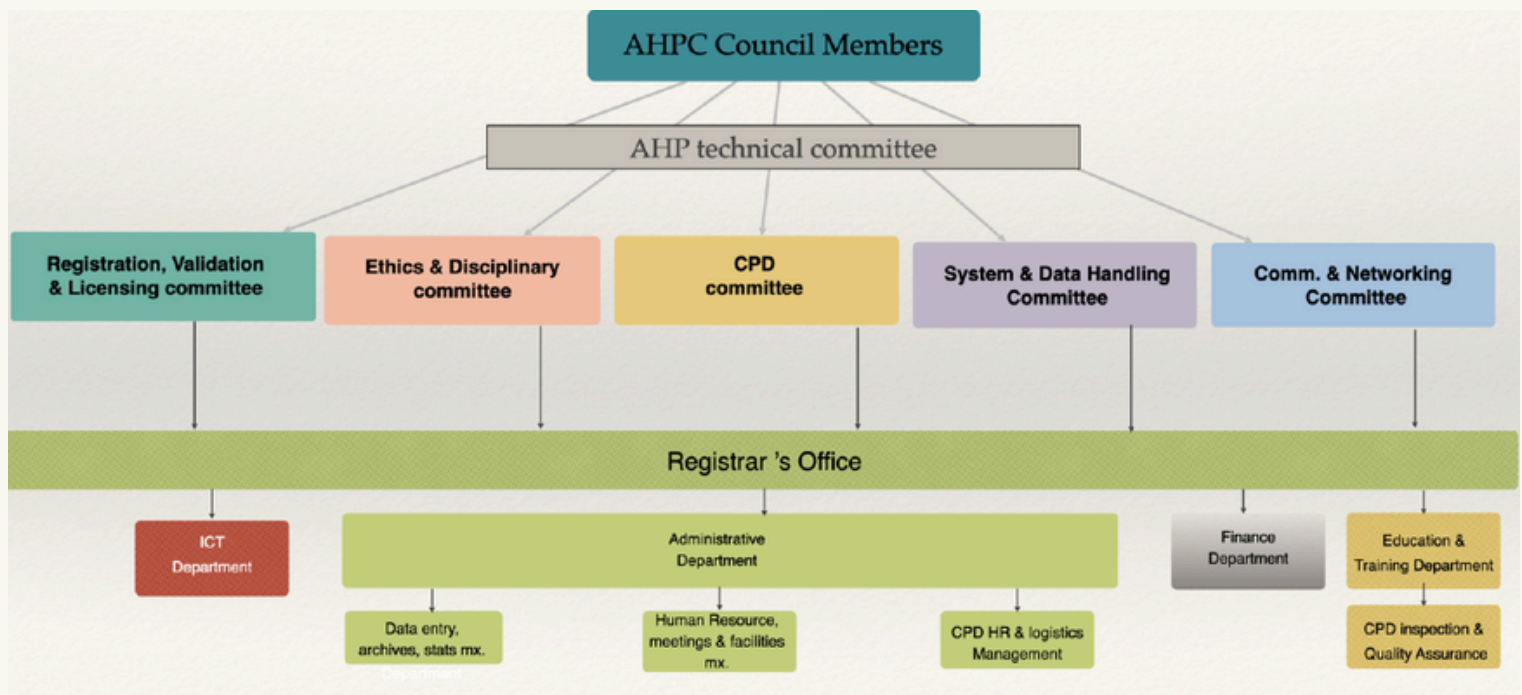

- Nominations for new council members were gazetted in February 2025 creating a major backlog in decision taking in various areas of council operations.
- The laudable research and consultation work with the 18 professions to align First schedule to global AHP standards. This was achieved with amendments to First schedule of the Act in Aug 2024 and part of the registration backlog was cleared.
- No Council meetings from November 2024- end of March 2025.
- Guiding local AHP training institutions to AHP competency standards.
- Addressing the rationales for delayed registrations.

NOTE OF GRATITUDE

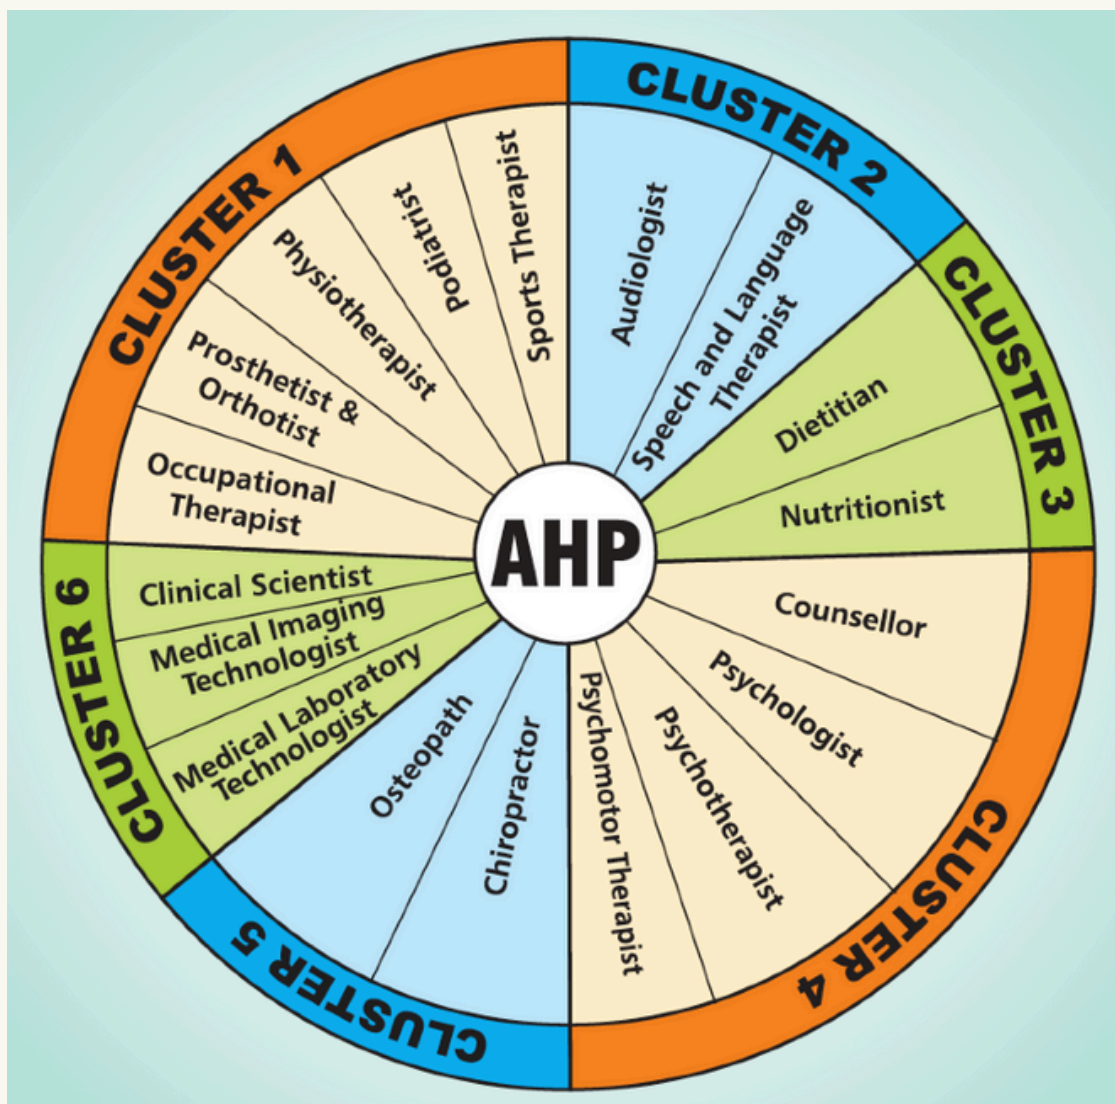

We are humbled by the collective effort of :

- The Government Of Mauritius for recognising and uplifting of these 18 professions.
- The Ministry of Health and Wellness for its ongoing infrastructural and human resource support since the advent of the AHPC Act.
- The local and international Professional AHP Associations for supplying us with intellectual assets.
- The International AHP Councils for guidance.
- The Medical Council of Mauritius for insights.
- Tertiary Education Institutions.
- The past AHPC members, sub committee members, our Registrar, the administrative team, the IT and Finance team for setting up the foundations of the council and for their ongoing support.
- All AHPs for your years of patience for legislative and systemic changes.
